

Foundation Apprenticeships **Business Skills**

Course starts in August

Our Foundation Apprenticeships will help you jump from the classroom to the workplace allowing you to get all the experience you need.

You will move away from the traditional classroom, focusing on practical experience, while being involved in a work-based challenge project supported by an employer allowing you to connect with professionals from the sector.

Learn about business, management, finance & budgeting, human resources and stakeholders impact, IT for business as well as emerging industry topics such as social media analytics, digital marketing, and entrepreneurship to stay on top of the game.

Move forward to college, university, a job, or modern apprenticeship and pursue a career in Administration, PR, Advertising, Marketing, IT & Automation, Management and more.
